GOVERNMENT 5-STAR SAFETY RATINGS

Overall Vehicle Score

Not Rated

Based on the combined ratings of frontal, side and rollover.  
Should ONLY be compared to other vehicles of similar size and weight.

|                                                                                                                           |                      |                |
|---------------------------------------------------------------------------------------------------------------------------|----------------------|----------------|
| Frontal Crash                                                                                                             | Driver Passenger     | ★★★★★<br>★★★★★ |
| Based on the risk of injury in a frontal impact.<br>Should ONLY be compared to other vehicles of similar size and weight. |                      |                |
| Side Crash                                                                                                                | Front seat Rear seat | ★★★★★<br>★★★★★ |
| Based on the risk of injury in a side impact.                                                                             |                      |                |
| Rollover                                                                                                                  |                      | Not Rated      |
| Based on the risk of rollover in a single-vehicle crash.                                                                  |                      |                |

Star ratings range from 1 to 5 stars (★★★★★) with 5 being the highest.

EPA DOT

Fuel Economy and Environment

Gasoline Vehicle

Fuel Economy

26

MPG

combined city/hwy

3.8

gallons per 100 miles

Small SUVs range from 14 to 118 MPG.  
The best vehicle rates 140 MPGe.

You spend

\$500

more in fuel costs over 5 years

compared to the average new vehicle.

Annual fuel cost

\$2,000

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 28 MPG and costs \$9,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$3.50 per gallon. MPGe is miles per gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
